

**Bulk Material Handling and Feeding Solutions**

- Feeding Technology:**
- Volumetric feeders
  - Gravimetric feeders
  - Weigh belt feeders
  - Liquid feeders
  - Strand pelletizers
  - Batch blenders
- Pneumatic Conveying:**
- Continuous systems
  - Vacuum sequencing
  - Rotary valves
  - Filter receivers
  - Hopper & bins
  - Dilute & dense phase

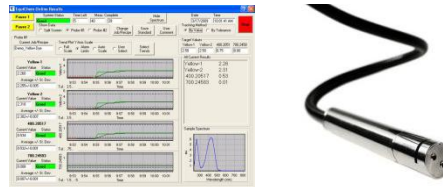

- Slide gates
- Rolling blade gates
- Diverters - single, double, bucket, basket,...
- Dustless loading spouts & chutes
- Clamshell single & duplex gates
- Fluidized conveyors, slide gates, rolling blade
- Dust suppression

- Bucket elevators
- Sanitary, closed conveyors
- Sanitary belt conveyors
- Bulk bag handling

- Welded silos
- Storage tanks
- Hoppers
- ASME pressure vessels

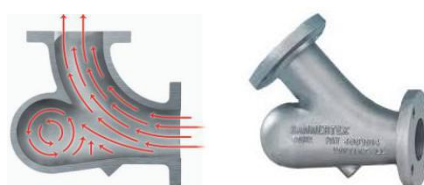

- Process Control Equipment**
- In-line continuous real-time measurement
  - Color, chemical composition, thickness of sheet/coatings for the plastics, chemical, food, paint, inks, environmental or pharmaceutical industries

- Sanitary Food Handling Processing**
- Homogeneous belt conveyors
  - Wire mesh conveyors
  - Box/hopper dumpers & tippers
  - AIM merge-sort-switch
  - Tabletop chain conveyors

- Horizontal & vertical batch blenders
- Continuous blenders
- Bucket elevators
- Distributors
- Ribbon & paddle mixers

- Deflection elbows for pneumatic conveying
- Prevents formation of streamers, angel hair & snake skins
- Prevents wear and failure when conveying abrasives
- Prevents breakage of fragile materials
